MORE TOILET INFO

We had a great turn out on Friday night for the opening of our new toilets. It was wonderful to see some of our past members again. For those of you who are new to the club we have waited a very long time for these toilets and a lot of blood, sweat and sometimes tears has gone into making them happen.

Tim and friends have almost completed our new facility. The pile of dirt has been removed and the new rainwater tank installed. The last of the plumbing has also been completed and all under budget. Well done to all involved.

The last task will be to do the fencing around the toilet and soakage pit so no one falls in. This will take place at our next working bee so we will once again need all hands on deck.

Let's make sure this new facility stays nice by keeping it clean. It would be great if the people on lunch/ afternoon tea duty could make sure it is cleaned after every rally please.
